Multiple Unlock Methods

Providing both door entry security and internal communication, ON-3201AD is the practical solution for access control in your home .

- **ACCESS CONTROL** will keep people and assets safe inside a home or building.
- **Electric Lock** draws power directly from door station so separate power supply and wire are not required.
- **Gate Unlock** allows you to connect another electric lock from your gate.
- **HANDS-FREE** communication is great for home.
