- With DIP switch for setting time delay for opening & relock door.
- Low working current, no over heating problem.
- Fail safe type released as power off.

## Specification

Lock size(mm)	: 204(L) x 33(W) x 45(D)
Approx. weight	: 687g ±1%
Nominal voltage	: DC11~16V
Standby current	: 90~100mA
Working current	: 820~870mA
Temp. range	: -20°C ~ 70°C
Power consumption:	1.1W(standby) / 13.9W(work)

## Accessories

External hanging basket  
ON-B64

Glass jig  
ON-DASTC-2

Glass thickness: Max.12mm
