

# Model : ON-F5000

## AI Facial Recognition

With Access Control & Time Attendance

- 3D Intelligent facial recognition system, fast scanning with no need to stop
- 4Core/1.2G Processor and 1G DDR3 CPU
- LED light with auto adjusting luminance according to environment
- Dural IR light with no affection in day and night
- Flat size with alloy material
- Time zone setting for access control

# Working Diagram

# Specification

## Material

Aluminum Alloy

## Display

4.3 inch, wide view angle touch screen

## Processor, RAM, Flash Memory

4Core/1.2G, 1G DDR3, 8G eMMC

## System

LINUX AI

## Keypad

Virtual touch keypad

## Camera

1.3M HD Pixel, 1.3M IR Camera

## LED

LED fill light, Dual IR Light

## Intelligent Function

IR Living Body Detection

## Capacity

Face: 2,000

Logs: 200,000

## Customization

5,000 faces, 10,000 faces

## Access Control Interface

Sensor, Alarm, Relay, RS232, Exit Switch

Wiegand 26/34 input and output

## Dynamic Face

0.5-3M

## Verification

Dynamic face, Password, Face & Password

## Identification

1:1, 1:N

## Identification Time

Less than 200MS

## Identification

FRR≤0.01%; FAR≤0.0001%

## Language

Chinese, English, Other language can be customized

## Communication

TCP/IP, USB type-A, WIFI (optional)

## Working Environment

-15°C to 60°C, < 90°C, IP65

## Dynamic Range

120dB

## Ambient Light

0-50000Lux

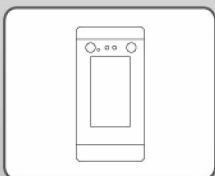

## Power Supply

DC 12V, 3~5A

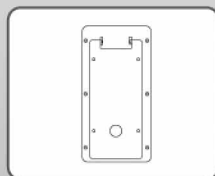

## Dimension

180 x 91 x 19 mm
